

How to care for your Leitner linen products

Washing:

- Linen prefers a gentle wash at 40°C on a low spin cycle: use detergent without an optic whitener, bleach additives or softener.
- Do not put the laundry in the washing machine when folded.
- Linen wants to float: fill the washing machine with only a few items and little detergent.
- Never wash linen using gentle low-water machine cycles.

Ironing:

- Iron while the item is still slightly damp. If you do not have a steam iron, use a mist spray bottle to dampen the fabric before ironing.
- Before starting, ensure that the iron plate is clean and smooth. If using a steam iron, make sure there is no lime scale build up, as this can leave marks on the fabric.
- Iron on the reverse first, and then on the right side.

Stain removal:

- Due to the smooth surface of linen fibre and its natural wax cover, linen is exceptionally dirt resistant. Spots should be dealt with as long as they are fresh.
- Wine and fruit juice: Apply a solution of salt dissolved in lemon juice onto the fresh stains, or just salt, and then wash as normal.
